

**Product name:** Krux Orona

**Product ID:** KRXD003

It sounds a lot like something that ornates a head of a king, but in fact it's something that ornates a desktop of a true chad. Krux Orona is an incredibly looking PC case that is a perfect host for your gaming engine of ruin. Spacious like a treasure trove, drafty like a palace court.

### **Keep the air flowing**

Looking at the front of Krux Orona, you'll find a big mesh panel. The proper airflow is crucial in keeping your components cool, and this filter will let the breeze come in like it's Aspen peaks. The mesh panel is mounted with a latch, so it's very easy to dismantle and clean it.

### **Beast's terrarium**

All of us cherish a different type of tech gadgets. Perhaps you have a GPU with a fan so huge that it inspires awe, or maybe one of the components has a small screen that displays your name? One of Krux Orona's sides has been supplied with a glass pane that shows all your hardware in plain sight. It is mounted on hinges, so even if you're tinkering with your setup on a regular basis, there's no need to worry about grinding the bolts flat.

### **Four fans on the go**

Krux Orona provides a great airflow from the moment you take it out of the box. It comes with four preinstalled 120 mm ARGB fans – three in the front and one in the back. Just push the power button and the interior becomes fresh and colorful. Even if you're feeling like getting more, there are still four other free fan slots in it.

### **So spacious**

Krux Orona has extra space not only for additional fans mentioned above. You can use it to host a ATX, microATX or Mini-ITX motherboards. You'll also fit the big PSUs on its floor (up to 190 mm) and mount a hefty GPU (up to 340 mm) inside. That's a whole treasure chest for your precious electronics.

### **Protected all around**

Speaking of treasures, you can't let anything settle on pricy equipment, especially with all the airflow provided. Aside from the big filter mesh front, Krux Orona has two more dustproof filters. The one on the top of the case doesn't let anything settle from the above. The other one, from the bottom, doesn't let any dust and tufts get in from the floor or the desk, which is crucial for protecting the lifespan of your PSU.

### **Krux Orona - main features:**

- Air permeable front panel
- Side glass panel with hinges
- Four ARGB fans
- Spacious interior
- Three anti-dust filters

## **Krux Orona – technical specifications:**

- **Product code:** KRXD003
- **EAN:** 5903018667539
- **Product type:** PC case
- **Color:** black
- **Dimensions (H×W×L):** 410×210×483 mm
- **Motherboard form factor:** ATX, microATX, Mini-ITX
- **Graphics card clearance (GPU):** 340 mm
- **CPU cooler clearance:** 165 mm
- **Power supply clearance:** 190 mm
- **Expansion slots:** 7
- **Number of bays:**
  - Internal:
    - 1× 2.5"
    - 2× 2.5" or 3.5"
- **Cooling system:**
  - Number of fans (max): 8
  - Number of fans (installed): 4
    - Front: 3× 120 mm
    - Rear: 1× 120 mm
- **Radiator cooling compatibility:**
  - Top: 1× 240 mm
  - Front: 1× 240/280/360 mm
- **Dust filters:**
  - Front
  - Top
  - Bottom
- **I/O Panel:**
  - 3× USB-A (2× 2.0, 1× 3.0)
  - 1× headphones (minijack 3.5 mm)
  - 1× microphone (minijack 3.5 mm)
  - 1× POWER button
  - 1× RESET button
- **Warranty:** 24 months

## **Krux Orona – logistics data:**

- Retail box dimensions: 480×270×550 mm
- Weight (net): 5.470 kg
- Weight (gross): 6.485 kg

## **Set includes:**

- 1× Krux Orona case
- 4× 120 mm RGB fan
- 1× Installation kit
- 1× User and safety manual
