

Product name: Krux Arm 400

Product code: KRXH006

The sirens blare and the hangar door opens to reveal Krux Arm 400, our secret weapon. Solid, durable, with great load capacity and a number of conveniences – you just have to have it when the action is hot. It's a microphone stand that will serve your battle stations for years to come.

Tough one

Just one look at Krux Arm 400 is enough to see that it's sturdy. The metal frame merges endurance & stability with awesome looks. Once you mount your mic, telephone holder or camera on the stand and set it in the right position, it will not budge. Just remember that the payload is dependent on the setting and the angle.

At all angles

From above, from below, askew – doesn't make much difference to this piece. Just like an industry-standard photocamera stand or a high-precision robotic arm, the stand is surmounted with a ball head that enables free and accurate setup of the equipment's angle.

Right where you need it

Krux Arm 400 is so versatile that, if you ever need that, you can even fix it onto your fridge. The flat profile allows you to install the stand behind your monitor, so that you can pull it out or hide it when needed. When you need to have it somewhere closer in the front, but you're afraid to damage your pristine gaming desk, the rubber-coated clamp comes in handy, protecting the surface from any scratches.

Extra length

In its basic form Krux Arm 400 has 740 mm horizontal and 700 mm vertical range. That's a lot, but there might come a time when you just need a tad more. Fortunately we're not fresh out of Bunker 76 and you don't need to put it on the workbench for that. The stand's package comes with an extension rod that you can use between the base and the main frame.

A range of accessories

In the box you'll also find a big bunch of gadgets and accessories that Solid Snake wouldn't mind having in his backpack. Is the thread on your mic or your phone/camera holder different? No worries, the set includes two adapters (3/8" to 5/8" and 3/8" to 1/4"). You need to change the stand's position often? Tack a convenient magnet wherever you like and have the hex wrench handy at all times. Nothing's a surprise from now on.

Krux Arm 400 – main features:

- Can be installed either on the edge of a desktop or in an opening
- Built-in channel for cables
- Wide compatibility and adjustment range
- Full range of horizontal rotation
- Premium quality

Krux Arm 400 – technical specifications:

- **Product code:** KRXH006
- **EAN:** 5903018667430
- **Product type:** arm
- **Color:** black
- **Horizontal reach:** 740 mm
- **Vertical reach:** 705 mm
- **Maximum weight supported:** 1800 g
- **Base width:** 70 mm
- **Thread size:** 3/8"; 3/8" – 5/8"; 3/8" – 1/4"
- **Horizontal rotation:** 360°
- **Materials:** aluminum, plastic, steel
- **Warranty:** 24 months

Krux Arm 400 – logistics data:

- **Retail box dimensions:** 395×115×83 mm
- **Weight (net):** 1.600 kg
- **Weight (gross):** 2.000 kg
- **Master carton dimensions:** 410×370×185 mm
- **Master carton weight (gross):** 12.5 kg
- **Product quantity in master carton:** 6 pcs
