

Product name: Krux Nadir

Product code: KRXD007

Does Krux have something to offer to those who are looking for a case without a backlight? Of course, here's Krux Nadir. It's a perfect solution for those who prefer simplicity and modest elegance, but also for those who want to build their PC set from scratch, make it compact and have it endure intense usage for hours on end.

A tower for a serious setup

Sometimes it's the inside that counts, and the case is just supposed to keep it all in place without drawing one's attention to itself. A simple construction without extra ornaments, large and unified surfaces, no backlight or extra diodes. Krux Nadir will be the *éminence grise* of your computer – out of plain sight, but crucial for the whole endeavor.

Triple-ventilated...

Once you decide to go with Krux Nadir, you don't have to worry about proper airflow in your PC anymore. This case comes with three preinstalled fans – two 140 mm ones in the front and a 120 mm one in the back. This guarantees proper heat transfer, no matter what your target CPU and GPU cooling method is.

...in a tidy manner

The whole usable space of the front panel of Krux Nadir serves as a mesh that filters the air coming into the case. Such a solution makes the dust settle slower on the components inside, which prolongs their lifespan. The front panel can be also easily detached and reattached, which makes maintenance much easier.

Perfect peak inside

Just because the mechanical heart of your setup hides in the cool shade of Nadir, it doesn't mean it has to be hidden away from your eyes. The side panel of the case is made with tempered glass. The hinges and a magnetic lock that the panel mounted on let you reach inside on a whim and make the most important changes to the wiring and the slotting.

Uncompromised capacity

The optimal placing of ports and conveniences allows Krux Nadir to contain a whole bunch of components with outside measurements of just 446×210×376

mm. You can effortlessly fit it with an ATX-standard motherboard and a GPU of up to 315 mm in length. Within, you'll also find four drive slots and eight fan slots (two of which can contain 140 mm fans). That's more than one needs to work freely with their setup.

Krux Nadir – main features:

- Glass side panel with hinges and a magnetic lock
- Three fans, including 2x140mm fans behind the front panel
- Good airflow due to a mesh front panel
- Simple, aesthetic looks

Krux Nadir – technical specifications:

- **Product code:** KRXD007
- **EAN:** 5903018667621
- **Product type:** PC case
- **Color:** black
- **Case dimensions (H×W×L):** 446×210×376 mm
- **Motherboard form factor:** ATX, microATX, Mini-ITX
- **Graphics card clearance (GPU):** 315 mm
- **CPU cooler clearance:** 160 mm
- **Power supply clearance:** 160 mm
- **Expansion slots:** 7
- **Number of bays:**
 - internal:
 - 2× 3.5"
 - 1× 2.5"
 - 1× 3.5" or 2.5"
- **Cooling system:**
 - Number of fans (max): 8
 - Number of fans (installed): 3
 - Front: 2× 140 mm
 - Rear: 1× 120 mm
- **Dust filters:**
 - Front (mesh panel)
 - Top
 - Under the power supply
- **Tempered glass panel:**
 - Side
- **I/O panel:**
 - 1× USB 3.0
 - 2× USB 2.0
 - 1× headphones (minijack 3.5 mm)
 - 1× microphone (minijack 3.5 mm)
 - 1× POWER button
 - 1× RESET button
- **Warranty:** 24 months

Krux Nadir – logistics data:

- **Retail box dimensions:** 496×270×437 mm
- **Weight (net):** 4.600 kg

- **Weight (gross):** 5.500 kg

Set includes:

- 1× Krux Nadir case
- 2× 140 mm fan
- 1× 120 mm fan
- 1× Installation kit for the assembly of components in the case
- 1× User and safety manual
