Product name: Krux Plasma Wireless
Product code: KRXB001

Slick, locked and loaded – Krux Plasma Wireless reports ready for duty. It's a perfect solution for those needing "the" mouse but are looking for straightforward gear with no concern for finer detail. This model's versatility and prowess take a ton of worries away and facilitate intensive, hours-long clicking sessions.

Connect it as needed
Krux Plasma Wireless can be connected in three different ways. If you like your mouse on a leash, plug it via a USB cable and use it the traditional way. However, if you need it available wirelessly, you have a choice of connecting through a 2.4 Ghz dongle or pairing the mouse with your PC or console via Bluetooth.

Proper (sensor) optics
The Pixart PAW3311 optic sensor waits ready to precisely transfer all your moves and clicks to the computer screen. High tracking speed will be helpful not only when upping the high scores in your favorite game, but also for any digital work that requires fast responses.

Easy to control
Wireless optic mice can sometimes get a little heavy under your palm, but Krux Plasma Wireless is different. Combining universal shape and low weight of only 61 g, it's easy and comfortable to use. This set of physical traits is supported with a maximum resolution of 12 000 DPI, which covers the needs of even the hastiest operators.

Click for days
If you think the need for charging a wireless mouse is burdensome, Krux Plasma Wireless will change your mind. A full battery will let you use it for up to ten days straight. This minimizes the risk of hitting the low charge in the middle of key maneuvers or during a deadline project.

Customizable with software
Install the dedicated software of Krux Plasma Wireless to open up the spectrum of its possibilities. This way you can choose the color & type of backlight, change the button bindings, set up switchable DPI profiles, or configure your own macros from square one.

Krux Plasma Wireless – main features:
- Trimode – wired, BT and wireless 2.4 GHz connection
- RGB backlight
- Lightweight build (61 g)
- PixArt PAW3311 sensor
- Maksymalne DPI 12 000
- Kailh GM 4.0 mechanical switches
- Durable battery
- 6 programmable buttons
- 2-year warranty

Krux Plasma Wireless – technical specifications:
- Product code: KRXB001
- EAN: 5903018667676
- Product type: mouse
- Type of mouse: wireless
- Dominant color: black
- Dimensions: 123×62.5×39 mm
- Sensor: PixArt PAW3311
- Sensor type: optical
- Maximum tracking speed: 7,62 m/s
- Maximum sensitivity: 12 000 DPI
- Base sensitivity options:
    - 400
    - 800
    - 1000
    - 1500
    - 2000
    - 3000
- Microswitches: Kailh 4.0
- Microswitches service-life: 60 M clicks
- Connectivity:
    - Wireless 2.4 GHz
    - USB-A, cable length: 1.80 m
    - Bluetooth
- Max polling rate: 1000 Hz
- Backlight type: RGB
- Feet: TPFE
- Compatibility:
    - Windows
    - macOS
    - Linux
    - Playstation
    - Xbox
- Software: yes (optional)
- Software compatibility: Windows 10 or later
- Warranty: 24 months

Krux Plasma Wireless – logistics data:
- Retail box dimensions: 100×50×155 mm
- Weight (net): 61 g (±1)
- Weight (gross): 0.1480 kg
- Master carton dimensions: 420×270×360 mm
- Master carton weight (gross): 6.600 kg
