

Product name: Krux Tano
Product code: KRXD015

Krux Tano is a striking computer case with a panoramic curved glass panel spanning the front and side. It puts your PC on full display, while four pre-installed 120 mm ARGB PWM fans bring your build to life. Tano also features a USB-C I/O panel and a built-in PWM and ARGB hub for easy expansion.

Panoramic curved glass design

A large curved tempered glass panel flows seamlessly across the front and side, offering a wide, uninterrupted view of your components. The rounded edge enhances visibility even further, putting your hardware — and the ARGB lighting — front and center.

Efficient cooling system

Tano comes with four pre-installed 120 mm ARGB PWM fans. Three are mounted on the side near the front — Krux Reverse 120 mm PWM ARGB models with reversed blades that draw air into the case while maintaining a clean, uninterrupted look from the inside. At the rear, a Krux 120 mm PWM ARGB fan efficiently pushes warm air out, creating a balanced and effective airflow setup.

PWM and ARGB hub

A built-in PWM and ARGB hub keeps things simple. Instead of connecting each fan to the motherboard individually, you only need a single PWM cable and a single ARGB cable, with power supplied via SATA. The pre-installed fans are already connected. The hub supports up to eight devices, so you've got room to add four more fans whenever you need them.

Space for high-performance components

Krux Tano offers a spacious interior designed for modern, high-performance builds. It supports ATX, microATX, Mini-ITX, and even E-ATX motherboards.

There's room for graphics cards up to 420 mm long, up to seven expansion slots, power supplies up to 250 mm, and up to five drives (three 3.5" and two 2.5"). You can also install radiators up to 360 mm and up to 10 fans, making it easy to build a powerful cooling setup.

Dual-chamber interior design

The dual-chamber layout moves the power supply behind the motherboard tray, helping keep cables out of sight and the interior clean. It's especially important with a large panoramic glass panel. At the same time, it frees up more space for your core components.

I/O panel with modern USB-C

Up top, you'll find all the essentials within easy reach: two USB-A 3.0 ports, a USB-C 2.0 port, a combo audio jack for headphones and a microphone, plus power and reset buttons. Everything you need — no adapters required.

Krux Tano – main features:

- Panoramic curved glass panel on the front and side

- Four pre-installed 120 mm fans with PWM and ARGB
- PWM and ARGB hub for up to eight devices
- Support for E-ATX, ATX, microATX, and Mini-ITX motherboards
- Dual-chamber design with the PSU behind the motherboard
- Support for 120 / 240 / 280 / 360 mm liquid cooling
- Modern USB-C port on the I/O panel

Krux Tano – technical specifications:

- Product code: KRXD015
- EAN: 5903018669151
- Product type: PC case
- Color: black
- Dimensions (H×W×L): 443×277×426 mm
- Motherboard form factor: E-ATX, ATX, microATX, Mini-ITX
- Graphics card clearance (GPU): 420 mm
- CPU cooler clearance: 155 mm
- Power supply clearance (PSU): 250 mm
- Expansion slots: 7
- Number of bays:
 - internal:
 - 3× 2.5"
 - 2× 3.5"
- Cooling system:
 - Maximum number of fans: 10
 - Number of fans included: 4
 - Front (side view): 3× Krux Reverse 120 mm ARGB PWM
 - Rear: 1× Krux 120 mm ARGB PWM
- Radiator compatibility:
 - Front (side view): 1× 240, 360 mm
 - Rear: 1× 120 mm
 - Top: 1× 240, 280, 360 mm
 - Bottom: 1× 240, 280, 360 mm
- Dust filters:
 - Top
 - Bottom
- Tempered glass panel:
 - Front
 - Side
- I/O panel:
 - 2× USB-A 3.0
 - 1× USB-C 2.0
 - 1× headphones / microphone combo (minijack 3.5 mm)
 - 1× POWER button
 - 1× RESET button
- Warranty: 24 months

Krux Tano – logistics data:

- Retail box dimensions: 500×348×500 mm
- Weight (net): 7.30 kg
- Weight (gross): 8.70 kg

Set includes:

- 1× Krux Tano case
- 3× Pre-installed Krux Reverse 120 mm ARGB PWM fan
- 1× Pre-installed Krux 120 mm ARGB PWM fan
- 1× Pre-installed PWM and ARGB hub
- 1× Mounting kit
- 1× User manual
