

**Product name: Krux Vox**  
**Product code: KRXD016**

Krux Vox is a spacious PC case designed for high airflow and advanced hardware configurations. It features a tempered glass side panel and supports ATX motherboards, radiators up to 360 mm, and graphics cards up to 430 mm long. The case includes four PWM ARGB fans connected to an integrated ARGB controller and PWM hub with support for up to eight devices. The I/O panel also includes lighting controls and a USB-C port.

### **Tempered glass panel**

Vox features a tempered glass side panel that showcases your build and complements the ARGB lighting. Tool-free side panel mounting allows quick access during installation, upgrades, and maintenance.

### **Effective airflow and dust protection**

The high-airflow design, paired with four pre-installed fans, ensures efficient system cooling while still allowing room for future expansion. Vox supports up to five 140 mm fans alongside six 120 mm fans, or up to twelve 120 mm fans in total. The mesh front panel and easy-to-remove dust filters — magnetic at the top and slide-out at the bottom — help minimize dust buildup over time.

### **Four ARGB and PWM fans included**

Four pre-installed fans provide efficient cooling and vibrant ARGB lighting. At the front, three Krux 140 mm PWM ARGB fans draw fresh air into the case, delivering higher airflow and quieter operation compared to standard 120 mm models. A rear Krux 120 mm PWM ARGB fan serves as the rear exhaust.

### **PWM and ARGB control in one place**

The case eliminates the need to connect each fan directly to the motherboard thanks to an integrated PWM hub and ARGB controller supporting up to eight devices. The pre-installed fans are already connected, so all you need to do is connect a single PWM and ARGB cable to the appropriate motherboard headers and attach SATA power.

This setup simplifies both the initial build process and future upgrades while helping maintain clean cable management. The lighting controller also includes preset effects, multiple color modes, and support for motherboard synchronization.

### **Spacious interior**

Vox is a spacious case designed for demanding hardware configurations. It supports ATX, microATX, and Mini-ITX motherboards, as well as graphics cards up to 430 mm long. Inside, you'll find seven expansion slots, a classic bottom-mounted PSU chamber supporting power supplies up to 250 mm, and mounting space for two drives: one 2.5" drive and one additional 2.5" or 3.5" drive.

The case supports AIO radiators up to 360 mm or 280 mm at the front and top, as well as radiators up to 240 mm on the side panel. It also accommodates CPU air coolers up to 165 mm tall.

### **I/O panel with USB-C**

The top-mounted I/O panel keeps essential ports within easy reach. It includes USB-C 2.0, USB-A 3.0, USB-A 2.0, and a 3.5 mm combo audio jack for headphones or a microphone. The panel also features dedicated power and reset buttons, with the reset button assigned to lighting control by default.

#### **Krux Vox – main features:**

- Snap-in tempered glass side panel
- Spacious interior for high-performance hardware
- Support for ATX, microATX, and Mini-ITX motherboards
- Four pre-installed Krux PWM ARGB fans (3×140 mm + 1×120 mm)
- Integrated PWM hub and ARGB controller with support for up to eight devices
- Support for 120 mm, 240 mm, 280 mm, and 360 mm radiators
- Top-mounted I/O panel with USB-C 2.0 and USB-A 3.0

#### **Krux Vox – technical specifications:**

- Product code: KRXD016
- EAN: 5903018669168
- Product type: PC case
- Color: black
- Dimensions (H×W×L): 495×220×485 mm
- Motherboard form factor: ATX, microATX, Mini-ITX
- Graphics card clearance (GPU): 430 mm
- CPU cooler clearance: 165 mm
- Power supply clearance (PSU): 250 mm
- Expansion slots: 7
- Vertical GPU mounting support: no
- Number of bays:
  - internal:
    - 1× 2.5"/3.5"
    - 1× 2.5"
- Cooling system:
  - Maximum number of fans: 12× 120 mm or 5× 140 mm + 6× 120 mm
  - Number of fans included: 4
    - Front: 3× Krux 140 mm PWM ARGB fan (600-1600RPM ±10%)
    - Rear: 1× Krux 120 mm PWM ARGB fan (600-1600RPM ±10%)
- Radiator compatibility:
  - Front: 1× 280 / 360 mm
  - Side: 1× 240 mm
  - Top: 1× 240 / 280 / 360 mm
  - Rear: 1× 120 mm
- Dust filters:
  - Front (mesh panel)
  - Top (magnetic)
  - Bottom (slide-out)
- Tempered glass panel:
  - Side
- I/O panel:

- 1× USB-A 3.0
  - 1× USB-A 2.0
  - 1× USB-C 2.0
  - 1× audio headphones and microphone (3.5 mm minijack combo)
  - 1× POWER button
  - 1× RESET button
- Warranty: 24 months

**Krux Vox – logistics data:**

- Retail box dimensions: 540×275×545 mm
- Weight (net): 6.58 kg
- Weight (gross): 7.64 kg

**Set includes:**

- 1× Krux Vox PC case
- 3× Pre-installed Krux 140 mm PWM ARGB fan
- 1× Pre-installed Krux 120 mm PWM ARGB fan
- 1× Pre-installed ARGB controller with PWM hub
- 1× Mounting set
- 1× User manual
