

Product name: Krux Heliora

Product code: KRXD019

Krux Heliora is an elegant mid-tower case that combines natural wood accents with the functionality needed for a modern PC build. Its distinctive front panel with vertical slats gives it a unique look, while the thoughtfully designed construction — with multiple perforated sections, a 120 mm PWM fan, and support for radiators up to 280 mm — ensures efficient airflow, broad hardware compatibility, and convenient access to the interior.

Wood-accented elegance in a compact form

Heliora is a mid-tower case distinguished by its elegant front panel with vertical wooden slats. This distinctive detail makes it feel more like a refined piece of interior design than a typical PC case. The restrained form, natural wood accents, and rounded lines blend seamlessly into both office and home environments, while the tempered glass side panel with convenient tool-free snap-in mounting subtly showcases the interior of your build.

Expand up to eight fans

The case comes equipped with a rear Krux 120 mm fan with precise PWM control, helping exhaust warm air from the system. The design also allows you to expand the cooling setup to up to eight 120 mm fans, or six 140 mm fans supported by two additional 120 mm units.

Free airflow and reduced dust buildup

Multiple perforated sections help ventilate the interior, while the mesh front panel and dust filters on the top and bottom reduce dust entering the case. The convenient mounting system for the filters and front panel also makes cleaning quick and easy.

Functional case interior

Heliora is a mid-tower case compatible with ATX, microATX, and Mini-ITX motherboards. It accommodates graphics cards up to 320 mm long, ATX power supplies up to 250 mm in the classic bottom chamber, up to seven expansion cards, and a maximum of three storage drives (1×2.5"/3.5" and 2×2.5"). The case supports liquid cooling radiators up to 280 mm or 240 mm on the top, 120 mm at the rear, and CPU air coolers up to 175 mm tall.

Conveniently positioned I/O panel with USB-C

The I/O panel is positioned on the side, closer to the bottom edge, providing easy access to the ports when the PC is placed on a desk. It includes USB-C 2.0, USB-A 3.0, a 3.5 mm combo audio jack, as well as power and reset buttons.

Krux Heliora – main features:

- Elegant wooden front panel finish
- Attractive design with rounded edges
- Tempered glass side panel with tool-free mounting
- Pre-installed rear Krux 120 mm PWM fan
- Dust filters on the top and bottom
- Support for 120 mm, 240 mm, and 280 mm radiators on the top
- Classic layout with a bottom PSU chamber

- Support for ATX, microATX, and Mini-ITX motherboards
- Convenient side-mounted I/O panel with USB-C and USB 3.0

Krux Heliora – technical specifications:

- Product code: KRXD019
- EAN: 5903018669274
- Product type: PC case
- Color: black
- Dimensions (H×W×L): 370×220×459 mm
- Motherboard form factor: ATX, microATX, Mini-ITX
- Graphics card clearance (GPU): 320 mm
- CPU cooler clearance: 175 mm
- Power supply clearance (PSU): 250 mm
- Expansion slots: 7
- Vertical GPU mounting support: no
- Number of bays:
 - internal:
 - 1× 2.5"/3.5"
 - 1× 2.5"
- Cooling system:
 - Maximum number of fans: 8× 120 mm or 6× 140 mm + 2× 120 mm
 - Number of fans included: 1
 - Back: 1× Krux 120 mm PWM fan (500-1500RPM ±10%)
- Radiator compatibility:
 - Top: 1× 120 / 240 / 280 mm
 - Rear: 1× 120 mm
- Dust filters:
 - Front (mesh panel)
 - Top (magnetic)
 - Bottom (slide-out)
- Tempered glass panel:
 - Side
- I/O panel:
 - 1× USB-A 3.0
 - 1× USB-C 2.0
 - 1× audio headphones and microphone (3.5 mm minijack combo)
 - 1× POWER button
 - 1× RESET button
- Warranty: 24 months

Krux Heliora – logistics data:

- Retail box dimensions: 500×270×436 mm
- Weight (net): 4.88 kg
- Weight (gross): 5.76 kg

Set includes:

- 1× Krux Heliora PC case
- 1× Pre-installed Krux 120 mm PWM fan
- 1× Mounting set
- 1× User manual
